## ROTTENNESS OF TAMMANY IS SHOWN UP

The Further Investigation is Carried the Uglier the Situation Appears.

## W. R. HEARST TALKS

Determined that Criminals Shall Be Rigidly Prosecuted.

BELIEVES THAT RECOUNT WILL SHOW DIFFERENCE OF TWENTY THOUSAND VOTES IN HIS FAVOR--CROOKED WORK DISCOVERED IN BOSS MURPHY'S DISTRICT.

By Associated Press.  
New York, Nov. 10.—The situation today is described by William R. Hearst as follows:

"The Law Committee has discovered some very amazing things and the deeper we go into this thing the uglier it looks. We have evidence against twelve of the district leaders and I am confident we shall send two of three of them to prison."

"I am just as much interested in the criminal prosecutions as in the recount. In this case it makes no difference whether I am declared elected or not in comparison with the greater duty of sending the criminals to jail. It was for this purpose and to strengthen the evidence against certain district leaders that I made the offer of \$10,000 reward for such evidence."

"We have at least enough evidence to prove the necessity for a recount and I believe the recount will show a difference of twenty thousand votes in my favor."

## CROOKED WORK IN MURPHY'S DISTRICT

New York, Nov. 10.—Two ballot boxes were found today in a barber shop at 156 Third avenue, one full of half soiled and torn ballots and the other empty.

This barber shop was the polling place of the first election district and eighteenth assembly district which is the district of which Charles F. Murphy, the head of Tammany hall, is leader.

Hearst watchers found the two boxes and deputies from the state superintendent of elections Morgan's office took possession of the boxes.

## BIG CONTRACT GOES TO ST. AUGUSTINE RECORD

The Record Company has been awarded the contract for printing the revised statutes of Florida, says the St. Augustine Record.

The commission for the revision of the statutes composed of Judge Benjamin F. Liddon, of Marianna, Hon. J. C. B. Koonce, of Sumterville and Hon. Thomas F. West, of Marianna, met at the State Capitol, building in Tallahassee Tuesday, when they opened the bids for printing. The Record Company was represented by Mr. C. L. Deardorff, superintendent of the printing department.

The bids were as follows: Record Company, \$3.92 a page; Foote-Davis & Co., Atlanta, \$4.27; John G. Collins, Tallahassee, \$4.95; E. O. Painter Company, Deland, \$5.40 and the Capital Publishing Company, Tallahassee, \$5.55.

The contract is for six thousand volumes of about two thousand pages, three thousand volumes to be bound and three thousand unbound, to be delivered six months from the date of the contract.

The total cost to the state will be \$7,840, an amount well within the appropriation of \$8,400 set aside for this purpose.

## Brewton Conflagration Caused Damage of \$12,500

Special to The Journal.  
Brewton, Nov. 10.—By the heroic and splendid work of the two volunteer fire companies of Brewton the disastrous blaze, which seriously damaged the main building, a two-story brick structure, and practically destroyed the stock of goods of the Lottrell Hardware Company last night, the fire was confined to the one building. The stock of millinery of Mrs. P. B. McCallan, next door, was water damaged.

The fire originated on the second floor, and had gained much headway in the paint, sash, door and window parts when discovered. Just what caused the conflagration will remain a mystery, but the general impression is that it started from an electric light wire.

## CONFERENCE FAVORS NATIONAL CONTROL OF QUARANTINES

Ignored Construction of Doctrine of States' Rights and Met Problem Squarely--Only Dissenting Vote Cast by Sen. Mallory, of Florida.

By Associated Press.  
Chattanooga, Nov. 10.—Fourteen southern states today through their governors, senators, congressmen and representative citizens, made known their wishes as to the relations of the states to the federal government in matters of quarantine and immigration.

After a discussion of two days the Southern Conference on Quarantine and Immigration ignored the construction of the doctrine of states' rights which several eloquent orators sought

to apply to the question at issue, and met the problems in a business like manner. The convention passed resolutions favoring the National government taking charge of inter-state quarantines, acting in conjunction with state governments. Senator Mallory of Florida cast the only dissenting vote. The conference also passed strong resolutions favoring the bringing in to the south of desirable white immigrants. The conference will be held annually hereafter.

## DEATH CAUSED BY RELIGIOUS INSANITY

Negro Who Witnessed Baptism Last Sunday, Expires of Exhaustion a Few Days Later.

Insane with religion, because he had witnessed a baptism, when over seventy colored people had been baptized, Hugh Hayes, a colored man, residing at No. 308 South Florida Blanca street, died Thursday from exhaustion and nervous prostration.

On Sunday last a number of colored people witnessed the ceremonies and Hayes was among the number. He was much affected by the scene and the shouting that accompanied it, there being much excitement among those who were being baptized and also among the spectators.

The following day the scenes and excitement of Sunday began to tell upon Hayes. He was walking along the streets when he was first affected and began to shout and preach, singing the songs that he had heard the previous day. He would preach to an imaginary audience, and would endeavor to repeat the words of the preachers who conducted the baptism.

He finally became exhausted from his efforts and was taken to his home, and even when he had reached such a stage that he could not speak, he made gestures, as though he was preaching.

Dr. Mitchell, the attending physician, announced that death was due to nervous prostration and exhaustion.

## CALL LOANS AT 15 PER CENT

By Associated Press.  
New York, Nov. 10.—The rate for call loans went to fifteen per cent. again today and estimates of the losses in cash by banks for the week on currency movements ran from eight million to nearly ten million.

Olsen-Parr Match.  
Asheville, Nov. 10.—Charles Olsen of North Carolina and Jimmy Parr of England have signed articles for a match to decide the world's middle-weight wrestling championship. Parr holds the English championship belt, while Olsen, claims that he has yet to meet his first defeat. The men will meet in this city Thanksgiving night.

## ROCH WAS FINED \$25 BY JUDGE LANEY

In the Recorder's Court for Opposing the Fumigators of City.

M. L. Roch, residing on East Government street, who was arrested several days since on the charge of opposing the fumigating corps of the city, by refusing to allow them to enter his premises and fumigate his home, was yesterday fined \$25 in the recorder's court for this offense.

The case was called for trial several days since, but on that occasion some witnesses were absent and it was continued until Thursday when the evidence was taken, the session of court continuing until late in the afternoon. Judge Laney then announced that he would take the case under advisement and announce his decision Friday morning.

Yesterday morning when court convened the judge announced after a thorough review of the case, that he found the defendant guilty, and would impose a fine of \$25 and costs.

Counsel for Mr. Roch asked for an arrest of judgment, and it is very probable that the case will be appealed to a higher court.

## PRINCE LOUIS CAPTURED NEW YORK

Democracy and Cordiality Won Him Many Friends During His Visit.

HAD KING EDWARD PLANNED DIPLOMATIC STROKE HE COULD NOT HAVE DONE BETTER THAN TO HAVE SENT LOUIS OF BATTENBERG.

By Associated Press.  
New York, Nov. 10.—Rear Admiral Prince Louis of Battenberg has captured New York, heart and soul. The absolute democracy and unassuming cordiality with which the Admiral-Prince receives his visitors of high and low degree, has made friends for him during every minute of his stay here.

Had King Edward planned a great diplomatic stroke in sending his armored cruiser squadron to America waters, he could not have entrusted the mission to a more competent or accomplished diplomat than Prince Louis.

There were a number of social functions in his honor today. Tomorrow he goes to West Point and will there witness the football game between West Point and the Carlisle Indians.

## SENATOR BURTON AGAIN INDICTED

By Associated Press.  
St. Louis, Nov. 10.—The federal grand jury convened today and returned indictments this afternoon against United States Senator Burton of Kansas. It is stated that certain features in the former indictment against Senator Burton which were quashed were remedied in the new indictment.

The judge announced after a thorough review of the case, that he found the defendant guilty, and would impose a fine of \$25 and costs.

Counsel for Mr. Roch asked for an arrest of judgment, and it is very probable that the case will be appealed to a higher court.

## WITTE ABANDONS HOPE OF ACTIVE CO-OPERATION

Greatly Disappointed at Refusal of Constitutionalists to Support Him--40,000 Sufferers in Odessa.

By Associated Press.  
St. Petersburg, Nov. 10.—Count Witte's ministry, as thus far announced, is a practical acknowledgment that he has abandoned hope of securing the active co-operation of the constitutional democrats, or other liberal parties. Four of the ministers chosen were assistants to Count Witte when he was Minister of Finance. The only minister not a bureaucrat is the Minister of Communications.

The constitutional democrats consider that they have won a great victory in preventing the leaders of the constitutional group from accepting, saying that Count Witte's ministry is thus stamped as purely temporary and which must give way immediately on the convening of a national assembly to a cabinet in full sympathy with the parliamentary majority.

The count is greatly disappointed at the refusal of the constitutionalists to support him since it forces him to give on two fronts; with the reactionaries on his right and the social democrats and revolutionaries clamoring for a republic on his left.

## TROUBLE IN THE FRENCH CABINET

MINISTER OF WAR RESIGNED AND ROUVIER THREATENED TO GIVE UP POWER.

By Associated Press.  
Paris, Nov. 10.—The Rouvier ministry met with its first check today when M. Bertau, minister of war, peremptorily withdrew from the ministerial benches during an angry debate in the Chamber of Deputies and thereafter announced his resignation. For a time the entire cabinet hung in the balance and Premier Rouvier announced the readiness of himself and colleagues to give up power unless supported by a substantial majority. After a debate of exceptional violence a motion favorable to the ministry prevailed by a good majority.

Bishop Davies Dead.  
Detroit, Mich., Nov. 10.—Rev. Thomas Davies, bishop of the Protestant Episcopal diocese of Michigan, died last night.

## SUFFERERS NUMBER OVER FORTY THOUSAND

Odessa, Nov. 10.—Apprehensive of a renewal of the outbreaks here many foreigners last night went on board the ships of their respective nationalities. The governor general has given the consuls assurance that he will not permit further disorders but foreigners will feel safer on board the ships until affairs have settled down.

Perfect Neidhardt, to whom is attributed responsibility for the outrages is still in office.

It has been officially ascertained that there are upwards of forty thousand sufferers.

Joy is expressed at the retirement of General Treoff from the post of assistant minister of the interior.

## TROUBLE EXPECTED IN RUSSIAN POLAND

St. Petersburg, Nov. 10.—It is announced that martial law is to be declared throughout Poland, where the rapidly growing National movement and state of tension among the proletariat portends trouble.

## ROBBERIES ARE NUMEROUS NOW

Five Places Were Entered Thursday Night and Yesterday Morning.

Numerous robberies were committed in various sections of the city during Thursday night and yesterday morning. In fact the burglars got very busy, visiting seven or eight houses, entering five, where they secured jewelry and money.

These reports were made to the police station yesterday morning by persons who had been robbed. The police, of course, began an active search for the persons who had committed the thefts, but so far have been unable to locate them. The work of the thieves showed that they were accustomed to this class of burglary.

Joseph Burke, of the Home Bakery, was the first to make a report. He stated that a thief had entered his house and secured a very valuable silver watch. The burglar gained entrance to this place by removing a pane of glass and raising the window, over which there was a stick.

Frank Segari, a grocer, who resides in his place at the corner of Florida Blanca and Intendencia streets, was visited. Here the thief secured about \$25.00, removing the cash register from the counter and leaving it upon the floor.

The saloon of Joe Roth, at the corner of Government and Tarragona streets, was not forgotten. The thief also entered there by removing a glass but did not secure anything of value except some small change.

A storekeeper named Lewis, at the corner of Cevallos and Government streets, lost about \$1.50 in change by the visit of the burglar. Entrance was secured through a rear window.

The burglar failed when he attempted to get the earnings of the Chinese laundryman near the corner of Palmfox and Gregory. While attempting to pry open a window he awoke the Celestial and the latter raised such a noise that the thief made off.

## INSURANCE COMMITTEE HAS MASS OF FIGURES

By Associated Press.  
New York, Nov. 10.—At the closing sessions of the week today the Armstrong committee of the insurance investigation has behind it a mass of details and figures, which while of apparently little interest to the laity is of inestimable value to the committee.

## Bureau of Statistics on Cotton Crop Conditions

By Associated Press.  
Washington, Nov. 10.—The crop reporting board of the Bureau of Statistics of the Department of Agriculture finds from the reports of correspondents as follows:

The estimated condition of cotton harvested and not harvested as reported November 1, 1905, is 88.8 as compared with 71.2 on September 25.

## NO NEW CASES OF FEVER IN THE CITY

Most Encouraging Report Since Yellow Fever First Developed in Pensacola.

## ONLY 2 CASES LEFT

Yellow Plague Has Been Practically Eradicated.

NO MORE BULLETINS WILL BE ISSUED BY STATE HEALTH AUTHORITIES--THE FUMIGATING FORCE HAS BEEN DISCHARGED--YELLOW JACK REPORTED IN HAVANA.

No new cases, no deaths, two cases under treatment. This was the very favorable report made last night at the office of the state Board of Health. This is by far the most encouraging report issued from the office since the fever developed in Pensacola, and it is confidently believed that there will be no more cases here by next Monday or Tuesday. So far as quarantine is concerned, in which many are interested, it is expected that this will be lifted shortly after the report is made that no cases exist.

The two cases now under treatment are both convalescent, and will be discharged by the physicians during the next few days.

## Fumigation Stops.

With the exception of five men all of those who have been employed by the board in fumigation work, have been discharged. It was not deemed necessary to keep them at work, as the city has practically been covered, and those retained are for the purpose of fumigating any residence in which yellow fever might develop, or those adjoining. This means that the health officials believe that the fever has been eradicated and the few men are held only for use in case of an emergency. Others who have been in the service of the state will probably be relieved from further duty to-day.

## No More Bulletins.

To-day will witness the last bulletin to be issued by the board, and hereafter no more information will be bulletined. The state health officer does not deem it necessary now, owing to the fact that the cases have been so reduced and as no new ones are likely to appear, the public has lost interest in the yellow fever situation.

## Fever in Havana.

Dr. Porter yesterday received a telegram from Havana stating that two suspicious cases in that city had been diagnosed as yellow fever. He immediately wired Surgeon General Wyman to this effect. The telegrams received and forwarded are as follows:

Havana, Nov. 10th, 1905.

Dr. Porter, Chief Sanitary Officer, (Pensacola, Florida).

Two suspects diagnosed yellow fever by the Commission in Havana.

FINLAY.

Pensacola, Fla., Nov. 10th, 1905.

Wyman, Washington, D. C.

Finlay at Havana wires "two suspects diagnosed yellow fever by the Commission in Havana." As he does not state source of infection known, request that for present and until can be determined no other cases existing that you will instruct no passengers from Havana for Florida leave without immune certification countersigned or vouched for by Medical Officer of Service at Havana. This request has approval of President State Board of Health.

"GEE! I CAN'T MOVE THESE DAYS BUT THAT FINGER IS CALLING ATTENTION TO ME!"
